Summary

A custom CRT design.

[Gadgets](#) > [Other Gadgets](#)

Tags: [tv](#) [lcd](#) [crt](#) [retrotink](#)

Very Hard to build and expensive to get the parts probably.
You know if you're skilled enough to build this and if you aren't; please don't flood me with question on how to build it.

Instructional PDF to build it step by step and how to print or purchase prints. Also includes the Gerber files needed for making the power board and a BOM list for parts used.

Good luck
